

# **STATEMENT IN FAVOR OF LIFE, OF PEACE, OF EQUALITY**

[www.fund-culturadepaz.org/PEACE.htm](http://www.fund-culturadepaz.org/PEACE.htm)

According to the FAO 35,000 children die from hunger each day. This is genocide of appalling proportions, which we witness with apathy daily.

## **NO TO POVERTY!**

In a great roar heard worldwide we must demand that our government leaders give priority to fulfilling the Millennium Objectives. We must forsake complacency for personal involvement.

We must urgently join the voices of all peoples of the earth to say:

## **NO TO WAR AND VIOLENCE.**

We have remained silent too long, but this silence must stop. The peoples will raise their voices. War is a tragedy for all. It is urgent that we disarm this armed reason. It is urgent the dialogue.

The time of the peoples has come. And above all, the time of those young people, men and women who believe that another world is possible.

## **YES TO PEACE AND JUSTICE!**

If we make progress, in these advances we will soon achieve a “globalized conscience”, the source of real independence for the world’s peoples.
